California DUI Murder a.k.a. The Watson Murder Rule!

Posted on May 26, 2010 by attorney Gabriel Dorman

In California, a DUI resulting in the death of another human being is known as a "Watson Murder." The "Watson Murder" or "Watson Murder Rule" originated with the case of People v. Watson, in which a multiple DUI offender's prior convictions were used to prosecute him for second-degree murder under the legal theory of "implied malice".

"Implied Malice" second-degree murder can best be summarized as follows: "I know what I am doing is dangerous to human life, but I don't care, I am going to do it anyway!"

In 1981 the California Supreme Court, in the landmark case of People v. Watson, held that someone who causes a fatal accident as a result of driving drunk can be found guilty of second degree murder based on a theory of “Implied malice”. As a result, nearly all courts in California require the signing of a "Watson Advisement" as part of DUI sentencing as a way to make prosecution of a potential subsequent second degree murder case by DUI easier to prosecute.

"Watson Murder" prosecutions are generally, but not exclusively, applied to individuals with prior DUI convictions. An individual's prior conviction(s) often makes it are easier to prove "implied malice" because their prior conviction puts them on notice of the inherent dangers of drinking and driving. In almost all cases, the person has already attended alcohol educations classes where they learned about the dangers of drinking and driving. As such, what the person may not have known the first time they got a DUI, cannot be said for the second or subsequent DUI. Prosecutors will also use prior attendance at DUI schools to prove that the defendant was expressly made aware of the dangers of driving drunk including the potential for killing someone.

As a matter of fact, in an effort to make future Watson Murder prosecutions easier, all California courts, including all Los Angeles and Orange County DUI courts, require a defendant to sign a waiver advising them of the dangers of DUI and the potential consequences if they do it again and hit and kill someone in the process. The advisement is referred to as 'The Watson Advisement" which states as follows:

I understand that being under the influence of alcohol or drugs, or both, impairs my ability to safely operate a motor vehicle. Therefore, it is extremely dangerous to human life to drive while under the influence of alcohol or drugs, or both. If I continue to drive while under the influence of alcohol or drugs, or both, and as a result of my driving, someone is killed, I can be charged with murder.

This way, if that person happens to drink and drive again, and in the process, hits and kills someone with their car, there is a signed notice on file with the court acknowledging they knew it was dangerous but did it anyway ...implied malice has been established for purposes of a "Watson Murder".

Driving Under the Influence (DUI) Program Enrollment
Participant Information/Informed Consent and Agreement

DUI program services in California must be completed through the Department of Health Care Services (DHCS) licensed DUI program. California's Health and Safety Code (HSC), Division 10.5, Part 2, Chapter 9, Section 11836 establishes the DHCS as having the sole authority to license DUI Programs to provide alcohol or drug recovery services to a person whose license to drive has been administratively suspended or revoked for, or who is convicted of, a violation of Section 23152 or 23153 of the Vehicle Code (VC), and admitted to a program pursuant to Section 13352, 23538, 23542, 23548, 23552, 23556, 23562, or 23568 of the Vehicle Code.

Pursuant to Title 9, California Code of Regulations (CCR), Chapter 3, Section 9848, a DUI program may enroll any person who presents documentation from the court or the DMV verifying his/her arrest or conviction for a DUI violation specified in HSC Section 11836 as referenced above. To ensure timely program enrollment, DHCS will allow several types of documents generated by the DMV or court. (See DHCS acceptable Enrollment Document Matrix)

Although DHCS licenses DUI program services, program requirements are ultimately dependent on offenses specified in California Vehicle Code, and interpreted by the California Department of Motor Vehicles (DMV)-Mandatory Action Unit (MAU), in conjunction with the court of conviction.

When enrolling in a DUI program following arrest for a DUI offense prior to a conviction, the DUI program will enroll you in the most appropriate program type based on the information contained in the enrollment documents you present along with any additional information you are able to provide at that time. DHCS encourages you to contact the DMV-MAU at (916) 657-6525 if you have questions/concerns specific to the type of DUI program you will ultimately be required to complete.

Please note, following your initial DUI program enrollment there may be instances in which DMV's MAU review of your DUI offense/driving history and/or court proceeding may necessitate a modification of the program type you are/were initially enrolled in. In all instances, you are financially responsible for all DUI program services received and/or incurred during your enrollment in a DUI program. (Additional program service fees are identified in the participant contract you will review and sign at the time of DUI program enrollment)

The following consent/agreement and required enrollment documents must be completed and placed in your participant file as required by CCR, Title 9 requirements. As with all documents produced during your DUI program enrollment and participation, you are encouraged to retain copies for your records.
